

12 Frangipanni St, Russell Island

ARCHITECTURALLY ECO DESIGNED ISLAND HOME

This is a beautifully designed and finished home which comes furnished and is set on a 597m2 corner block in peaceful surrounds. There is nothing to do but move in, relax and enjoy!

Externally it is finished with western red cedar and inside there are more gorgeous timber features, with mixed Queensland hardwood floors throughout and fabulous raked ceilings finished in Solomit Strawboard.

This material provides thermal insulation, reducing heating/cooling costs and also noise reduction through sound absorption. These eco finishes provide a natural softness throughout the home and are made from 100% natural products. The special roof construction also provides natural air flow between the roof and the ceiling to further improve your comfort.

All windows are screened and finished with louvres, allowing you to control air flow, providing beautiful natural light and further helping to reduce your energy bills.

The kitchen is spacious with plenty of storage and bench space and opens to the comfortable lounge and dining area.
